Why Advertise for Clients on the Internet? – Jeff Bell

Willie Sutton – “Why do I rob banks? Because that’s where the money is.”

WHERE ARE YOUR POTENTIAL NEW CLIENT’S EYES & EARS?

Trend for years has been people using the internet to research, find and buy cars, homes, repairmen, hire doctors, dentists, CPAs, attorneys – any product, service or professional!

STATISTICS:

1. **Google:** 34,000 searches per second (2 million per minute; 121 million per hour; 3 billion per day; 88 billion per month, figures rounded)

2. **Yahoo:** 3,200 searches per second (194,000 per minute; 12 million per hour; 280 million per day; 8.4 billion per month, figures rounded)

3. **Bing:** 927 searches per second (56,000 per minute; 3 million per hour; 80 million per day; 2.4 billion per month, figures rounded)

IMPACT:

Major Print Media have been losing money, going out of business or filing BK:

- The Philadelphia Daily News filed for bankruptcy
- The Minneapolis Star Tribune has filed for Chapter 11.
- The Boston Globe is, based on several accounts, losing \$1 million a week.
- The San Francisco Chronicle lost as much as \$70 million in 2008.
- The Chicago Sun-Times is the smaller of two newspapers in the city. Its parent company, Sun-Times Media Group, traded yesterday for 0.6 cents per share.
- The New York Daily News is lose \$60 million or \$70 million / year.
- The Cleveland Plain Dealer’s parent, Advance Publications, has already threatened to close its paper in Newark (going digital)
- **Too many magazines to list**
- **Yellow Page type telephone books** reduced in size or not printed at all

BEST SOURCES OF NEW CLIENTS:

1. **Existing Clients** – business development, cross sell, up sell
2. **Referrals** – easier to work with, convert from lead to client, don’t haggle as much about price/fees, pre-sold, pre-motivated, after client are more likely to refer
3. **Internet** – keyword searches on what you sell, services, your name, location

U.S. – Internet SEARCH ENGINE MARKET SHARE (August 2010)

Google – 71.6% | Yahoo – 14.3% | Bing – 9.9% (*Google 3X bigger than Yahoo+Bing*)

SERP – Search Engine Results Pages – How They Work

- A) Local Business Center – Google Maps/Places
- B) Pay Per Click – Google Adwords

What Is Google Adwords & Why Is It So Important To Being Found on the Internet?

In 1999

In 1999 where there was ONLY pure SEARCH, the SERP or Search Engine Results Page consisted of

100%

of the page with Natural or Organic listings being shown.

If you had a web site, your goal was to have your page/site listed near or at the TOP because in 'search' people are lazy and will click on the top listings to research or buy something.

So companies hired people to OPTIMIZE their web sites, for the Search Engines, so their sites would get near or top listings. SEO or Search Engine Optimization is born.

Over The Years Google Added Pay-Per-Click Advertising (Adwords) & Local Business Center Listings (Google Maps) So By 2010...

The screenshot shows a Google search for "atlanta accountant" with approximately 2,210,000 results. The page is divided into several sections:

- Sponsored Links (Red Box):** Includes "Need A Good Accountant?", "Accountants Atlanta", "McMullan & Company CPAs", "Small Business Accounting", "Atlanta Area Accounting", and "Decatur, GA - CPA Firm".
- Local Business Results (Blue Box):** Features a map of Atlanta with pins and a list of local accountants such as "Gifford Hillenoss & Inowarsen CPA PC", "Taylor Green LLC", "Verner Bromberg Cohen CPAs", "Bloom & Associates", "Aarons Grant & Habib, Habib Robert A CPA", "Jones and Kolb", and "Howard James C CPA".
- Organic Results (Green Box):** Includes "Accounting Atlanta small business accounting and bookkeeping services" and "ATLANTA ACCOUNTING FIRMS Accounting Bookkeeping & Payroll Services...".

11 years later in 2010 you now have Pay-Per-Click (Google ADWORDS) taking up over **50%** of the results page (red blocks) with paid ads.

Then if you're a local business and someone searches using geographic words like 'atlanta accountant' (at left) the the Local Business Results shown alongside a Google Map (blue block), takes up **35%** more of the results page.

GOOGLE PROGRAMS PUSH DOWN the natural or organic results so even if you have the best paid for or free SEO in the world for your keywords, your natural listing on page one only has as little as **15%** (green block) of the page to be shown in and it will likely NEVER be at the top of the page because of Adwords listings and Local Business Center listings push it so far down on the page.

Google Adwords Pay Per Click Advertising ADVANTAGES Over Other Advertising Media, Tools & Systems

Don't Have To Pay For CIRCULATION

In traditional print media, you're paying for the circulation (paid, controlled), households, audience of the ad whether or not anyone is REALLY reading, watching or listening.

- EX: Newspapers, Magazines, Yellow Pages, TV (broadcast, cable) Radio

Don't Have To Pay For IMPRESSIONS

Traditional Banner ads on web sites started where you paid by the thousands of impressions, again, whether or not anyone actually clicked on the ad.

PAY ONLY FOR CLICKS

When someone actually sees, reads AND clicks on your ad, only then are you required to pay for your ad.

TARGETING

You Can Show Your Ad ONLY to The People Who Are Searching for, Looking at or Wanting to find more information about what you offer or sell.

BUDGET / COST

You can limit your cost by the amount you are willing to BID / PAY for a Click AND the amount you want to spend by Day or Month.

GEOGRAPHY

You can limit & target your advertisements by country, state, MSA, city, radius around an address or specifically freehand draw on a map where you want your ads to show.

SCHEDULING

You can limit your advertising to show only during certain times of the day or days of the week.

TESTING

You can test different advertisement variations to see which one generates the best or most profitable responses for your business.

LANGUAGE

You can have your ads only show on sites that are written in one or more specific languages.

LENGTH

You can run a Google Adwords campaign for a couple days, a week, a month, pause (turn off) all or part of your advertisements, and restart them at any time.

GETTING STARTED

If you have a credit card, \$5 and a web site, you can create your account today and start seeing your ad show up tomorrow.

15 Common & Critical Mistakes

Most Accountants, CPAs & Business Owners (**AND Web Design Companies & Advertising Agencies & Search Engine Optimization Experts**) Make When Setting Up Your or Their Own **Google Adwords Pay-Per-Click Program**

1. **Campaigns** – are not organized correctly (geography, budget, keywords)
2. **Adword/Ad Groups** – only one is used per campaign when several should be
3. **Keywords & Keyword Phrases** – are not researched beforehand
4. **Match Criteria** – only one is used when 3 criteria should be used
5. **Advertisements** – are written in a branding style instead of lead generation format
6. **Ad Variations** – are not used when 1 or more should be
7. **Rotations** – are not used when a specific rotation type should be
8. **Networks** – are all turned on when some should be turned off
9. **Geography** – is defaulted to widely when should be narrowed
10. **Bid Amounts** – set and forgotten when strategy should be to test & adjust over time
11. **Budgets** – are either set to tightly or to high based on campaign scope
12. **Conversion Tracking** – is not set up at all or is done incorrectly
13. **Destination URL** – is set to the home page when specific landing page is needed
14. **Landing Page** – is decorative or cosmetic versus functional to generate a lead or potential new client, patient or customer
15. **Tool vs a System** – probably the biggest & most costly mistake people and Ad Agencies make in setting up a Google Adword Pay-Per-Click account is they view Adwords only as a 1-step TOOL that will turn clicks into clients, patients or customers when in actuality it is the First Part of a 3-Step process or **Marketing SYSTEM** that you need in order to Actually AND Cost Effectively take Clicks from the Internet and Systematically CONVERT them into actual, live and paying clients, patients and customers for your business.

Ad Evaluation Worksheet

BEFORE Running Your Ad - Use To Determine How Well Your Ad Will Generate A Response
AFTER Running Your Ad – Use To Diagnose Why Your Ad May Not Be Generating A Response
(INSTRUCTIONS: Put a number 1 in each box if your ad qualifies & then add your score in the right box)

Does your **TARGET MARKET** read the publication OR watch / listen to the TV or Radio station?

		=	Target Market
I have not surveyed customers but know other competitors have advertised here for over 1 year	I have surveyed customers and majority of them watch, listen to or read this advertiser	Total up your points in this row (2 possible) and put in box at right.	Score Here

HEADLINE that Grabs Your Attention in 3 Seconds

					=	HEADLINE
It's positioned at the very top of page or space given to ad, or said at the very start of spot/commercial.	Headline is the largest lettering of all text in the ad or said louder or slower in radio or TV	Headline asks a question or makes a bold statement, draws a comparison, problem / solution	It is based on the pain or emotional triggers people think of when buying what you sell	In 3 seconds its powerful enough to grab the attention of an ideal customer in your target market	Total up your points in this row (5 possible) and put in box at right.	Score Here

SUB-HEADLINE that Connects With Their Active Mind by Promising To Teach

					=	SUB-HEADLINE
Your sub-headline is directly underneath the headline at top of ad or said just after the headline	Is the 2nd largest lettering & is larger than body copy or is verbally emphasized like the headline	It promises to teach or educate reader if they read the ad further	It explains, illustrates or clarifies the headline or previews body copy	It touches on pain, hot buttons, how to avoid or benefit from reading further.	Total up your points in this row (5 possible) and put in box at right.	Score Here

BODY COPY that Teaches & Coaches How To Buy What You Sell

					=	BODY COPY
Body Copy covers 2 to 6 topics or issues important to your customers	Copy uses plain English in conversational tone to discuss points	Points are separated by short headlines that stand out from text or audio pauses	Content of copy teaches criteria of how to choose your product or service		Total up your points in this row (4 possible) and put in box at right.	Score Here

CALL TO ACTION that Offers More Information At Low / No Risk

					=	Call To ACTION
Directs reader to take a specific action after reading your ad	You offer to give information in written, electronic, verbal or visual form	The information offered is informative and useful in content	The information is FREE or very low cost and is LOW RISK & responders don't talk to people	Offer is in a box, coupon or other stand out & in radio or TV spot repeated at least 3 times	Total up your points in this row (5 possible) and put in box at right.	Score Here

Target Market x Headline x Sub-Headline x Body Copy x Call To Action = Total Score
(Customers) x (Grab) x (Connect) x (Teach) x (Action) = Total Score

Target Market	Headline	Sub-Headline	Body Copy	Call To Action	=	TOTAL SCORE
Customers	Grabs Attention	Promises	Teaches	Low Risk Offer		Out of 1,000
2	x	5	x	5	x	4
					x	5
					=	1,000

Use the **Ad Scorecard** to evaluate your ad effectiveness and projected results.

AD SCORECARD:

Your Score here _____

**BIG, STARTLING
HEADLINE THAT REALLY
GRABS YOUR ATTENTION
GOES RIGHT HERE.**

**Smaller But Very Noticeable Sub-Headline
That Promises To Teach Goes Here**

**Headline Of Your First Teaching &
Educating Point Right Here**

Teach your prospects and future customers how to buy from you. Give them good solid information about what to look for when they research, shop or begin looking for your product or service. **Bold face type** to highlight key words helps too. Make it about this long.

**Your Last Headline Here That
Continues To Promise Teaching**

Make sure your three points here are in line with your main headline and sub-headline above. If not revise the headline or your information here. If you have *numbers or statistics* to support claims then include them. You're **building up** to your risk free offer for future customers to take the next step in learning more about you.

**Put Another Strong Second Headline
About Your Next Point Here**

Write in short sentences. About how you might talk to a parent or friend. *Don't try to be funny.* Best to be **straightforward** and informational. Your goal is to educate your prospect. Your English doesn't have to be perfect. Conversational is best and you are half way done by now!

Insert Your Product Or Company Logo Here
If You Have A Tagline Then OK To Add It Too

0-49:

You're not getting any response from an ad with this score. All the basic fundamentals of what an ad should contain is missing. Stop running it and wasting your money until you can revise it to look more like the Basic Ad Content and Layout (left).

50-99:

You're getting very few if any responses, calls, traffic, inquiries or sales with this ad. It's probably not paying for itself if you really track the results. Work on the structure of the ad and test the headline, sub-headline, teaching points and offer format (left).

100-249:

You're receiving some response with your ad and it's breaking even or making you some money. Look at what the ad is missing in structure and test making some changes to your headline.

250-499:

You have a good strong ad! It's probably drives a lot of response through your doors, maybe 50-200% Return on Investment. Test your offer, make it more risk free or more targeted to the pain of your customers.

500+:

Great ad, it's probably making you 200-500% ROI. Try testing components of it to improve its performance.
